vuxenutbildning

Come to us to learn Swedish – speak, read, write and understand

**Here at InfoKomp you can learn Swedish.
We shape the SFI course to suit your needs.**

We start from some questions:

- What do you already know?
- What do you need to learn?
- When do you want to study – daytime or evening?
- How quickly do you learn new languages?
- What are the goals of your studies?

Your answers to these questions, your education and your experience are important to us when we work with you to plan and give you your education.

You can combine SFI studies with other studies, work or other activities.

Why you should learn SFI at InfoKomp

- You will be met by committed and knowledgeable staff
- You will receive respect for previous experience
- You will get a qualified and varied education in the Swedish language
